**MUNSTER BOVINE**
*Collectively Improving Farm Life*

Munster Bovine are currently recruiting for a QA Engineer to join our expanding team in Mallow, Co. Cork. Consideration given for a Part Time- or Full-Time role with flexibility in working conditions.

If you are looking for a challenge and would like the opportunity to work in a vibrant growing company, Munster Bovine would like to hear from you.

This will be a hands-on role working within a small professional agile team in a highly collaborative manner. The role is primarily focused on ensuring our *FarmOps* software meets the highest standards. FarmOps is an App which offers farmers trusted decision support to ensure farm sustainability.

As a Quality Engineer, you will primarily be responsible for testing new features on FarmOps along with regression testing the current application. As this will involve close, daily interaction within the context of an agile team, your communication and people skills will need to be superb.

**Responsibilities:**

- Work as part of an Agile team
- Create clear and accurate bug reports
- Quickly gain a working knowledge of the application
- Conduct manual tests to ensure quality goals are met
- Support production deployment of application
- Participate in troubleshooting of issues
- Maintain and expand existing testing documentation
- Ad hoc testing as needed

**Experience, education, skills required:**

- Essential interest in pursuing a career in Software Development or Quality Assurance
- Desirable previous experience in a software testing or QA environment
- Excellent attention to detail
- Strong communication skills
- Proactive and pragmatic attitude towards problem solving
- Enjoy working in a collaborative environment

Interested candidates should forward a copy of their cover letter and up-to-date CV in strictest confidence by Friday 10th June 2022 to Denise Murphy, HR Manager, Ballyvorisheen, Mallow, Co. Cork to careers@munsterbovine.ie

*Munster Bovine is an equal opportunities employer*
